CHAPTER 2

Academic Programs, Graduate Faculty, and Courses

The academic programs, graduate faculty, and course descriptions are outlined in this chapter.

The official descriptions of programs leading to graduate degrees are arranged below in alphabetical order. The faculty affiliated with each program is listed at the beginning of the description and the courses at the end. The college or school in which the program is located is noted and web and e-mail addresses are shown at the right margin. Admission and degree requirements which are listed in Chapter 1 are minimum standards. The student should consult the specific program description for additional criteria imposed by the department. All programs are cross-listed to aid in locating the official description. Several departments offer one or more concentrations as noted in Chapter 1 within the major, the requirements for these concentrations may be found in the program description.

Graduate instruction is the responsibility of the graduate faculty. The faculty listed below are arranged in terms of their departmental affiliations. Faculty teaching in interdisciplinary programs are listed under the appropriate programs and are identified as to the department in which they hold an appointment. The first of the two dates listed with the name of a faculty member indicates the year in which the highest degree was earned; the second date indicates the year when the person first became a faculty member at Southern Illinois University Carbondale.

The 400- and 500-level courses offered by Southern Illinois University Carbondale are listed numerically after each program description. The first entry for each course is a three-digit identification numeral. Courses numbered 400–499 are open to both seniors and graduate students, unless designated otherwise. Courses numbered above 499 are for graduate students only. Following the course identification number is another number which indicates maximum credit allowed for the course. The maximum may vary, and specific semester hours may be assigned for each term a course is offered. Following the course description may be prerequisites which must be satisfied before a student will be permitted to enroll. Graduate students will not receive graduate credit for Pass/Fail grades taken at the 400 level. Graduate credit is awarded for 500-level courses which have been approved to be graded S/U (Satisfactory/Unsatisfactory) only. All courses offered in a specific term will be listed in the appropriate Schedule of Classes which can be found at http://registrar.siu.edu/records/schedclass.htm.

Accountancy
Administration of Justice
Agribusiness Economics
Agricultural Sciences
Animal Science
Anthropology
Applied Linguistics
Architecture
Art
Behavior Analysis and Therapy
Biological Sciences
Biomedical Engineering
Black American Studies
Business Administration
Chemistry
Civil Engineering
Communication Disorders and Sciences
Community Health Education
Computer Science
Creative Writing
Curriculum and Instruction
Economics
Education (Ph.D.)
Educational Administration
Educational Psychology
Electrical and Computer Engineering
Engineering
English
Environmental Resources and Policy
Food and Nutrition
Foreign Languages and Literatures
Forestry
Geography and Environmental Resources
Geology
Health Education
Higher Education
History
Historical Studies (Ph.D.)
Kinesiology
Legal Studies
Manufacturing Systems
Mass Communication and Media Arts
Mathematics
Mathematics and Science Education
Mechanical Engineering and Energy Processes
Medical Dosimetry
Mining Engineering
Molecular Biology, Microbiology, and Biochemistry
Molecular, Cellular, and Systemic Physiology
Music
Pharmacology and Neuroscience
Philosophy
Physician Assistant
Physics
Plant Biology
Plant, Soil and Agricultural Systems
Political Science
Psychology
Public Administration
Recreation
Rehabilitation Administration
Rehabilitation Counseling
Social Work
Sociology
Special Education
